UDA Needs Profile: All UDAs

Frederick County, Virginia’s northernmost county has two UDA’s, surrounded by the City of Winchester and located adjacent to the I-81 corridor.

Location Characteristics

PDC - Northern Shenandoah Valley Regional Commission

UDA Size – 26.9 square miles

Year Designated – 2011

Comprehensive Plan Detail - Frederick County has designated two UDA locations - one located adjacent to Stephens City, and the other adjacent to the City of Winchester. Frederick County has identified its UDA as a location where more intensive forms of residential development will occur to accommodate the anticipated residential growth within the community. Neighborhood design policies will help transform areas within the UDA into walkable, mixed-used, interconnected focal points.

UDA Needs Profile: All UDAs

The City of Harrisonburg has designated three UDAs within its city boundaries. UDA one is located in downtown Harrisonburg. UDA two and three are located adjacent to I-81 and feature mixed use and high and medium density residential development.

Location Characteristics

- **PDC** – Central Shenandoah Planning District Commission
- **UDA Size** – 1.0 square miles
- **Year Designated** – 2011

**Comprehensive Plan Detail** – The City of Harrisonburg’s 2011 Comprehensive Plan Updates designates three Urban Development Area (UDA) locations within the city. The city's land use guide map designates the desired land uses for the UDA locations in Harrisonburg. One UDA - located in downtown Harrisonburg - is designated almost entirely for mixed use development or public uses. Another UDA - west of downtown, along I-81 - is primarily designated as a mixed use development and medium density mixed residential. The third - located in the southeast section of the city, along I-81 - is designated for high density residential and medium density mixed residential.

UDA Needs Profile

The City of Lexington is located in the northeastern part of the Commonwealth, bounded by the George Washington and Jefferson National Forest to the east and bisected by Routes, U.S. 11 and U.S. 60, respectively.

Location Characteristics

- **PDC** – Central Shenandoah Planning District Commission
- **UDA Size** – 2.5 square miles
- **Year Designated** – 2016

**Comprehensive Plan Detail** - The Urban Development Areas designated by a locality may be sufficient to meet projected residential and commercial growth in the locality for ensuing period of at least 10 but not more than 20 years and the City of Lexington’s 2010 Census population was 7,042 and is projected to increase to 8,799 by 2040 and this increase in population can be incorporated within the proposed Urban Development Area. The entire City Limits of Lexington have been designated as an Urban Development Area in a manner that is consistent with the requirements of Section 15.2-2223.1 of the Code of Virginia.

UDA Needs Profile: All UDAs

The Town of New Market, located in Shenandoah County has designated three UDAs within their jurisdiction, all three situated east of the I-81.

**Location Characteristics**

- **PDC** - Northern Shenandoah Valley RC
- **UDA Size** - 0.5 square miles
- **Year Designated** - 2012

**Comprehensive Plan Detail** - New Market's 2012 Comprehensive Plan breaks the town's Urban Development Areas (UDAs) into three distinct sections: Northern, Eastern and Southern. The UDAs are split across the Shenandoah County growth area and the Town of New Market, and anticipated to be developed with a mix of residential and commercial uses in accordance with Virginia code related to UDAs. The UDAs contain approximately 166 acres in the Shenandoah County growth area and approximately 119 acres located within the Town of New Market.

UDO Needs Profile: All UDAs

Page County has designated seven UDAs within their jurisdiction, five in the Town of Luray and two within the Town of Stanley.

Location Characteristics

- PDC – Northern Shenandoah Valley Planning District
- UDA Size – 1.1 square miles
- Year Designated – 2011

Comprehensive Plan Detail - In a 2011 Amendment to its comprehensive plan, Page County designated seven Urban Development Areas (UDAs) within its jurisdiction in order to concentrate future growth in the Town of Luray (five UDAs) and the Town of Stanley (two UDAs). Compact site designs within the UDAs reduce the amount of land consumed by development, preserving Page County’s rural landscape. The principles of traditional neighborhood design will be incorporated into the UDAs.

UDA Needs Profile: All UDAs

Rockbridge County has six UDAs that are anchored around the I-64 and I-81 corridors, which bisect the County and parallel the Old Midland Trail (Rt 60) and the Valley Pike (Rt 11).

**Location Characteristics**

- **PDC** – Central Shenandoah Planning District Commission
- **UDA Size** – 12.6 square miles
- **Year Designated** – 2003

**Comprehensive Plan Detail** - Rockbridge County has designated the defined County area around the City of Lexington, the Village of Natural Bridge, the Town of Glasgow and defined surrounding area, the County area around the City of Buena Vista, the Town of Goshen and defined surrounding area, the Village of Fairfield, and the Village of Raphine as Village Planning Areas. Village Planning Areas are defined in the land use plan as the more remote village areas characterized by the presence of existing development, accommodating road networks and existing or proposed access to public water and sewer services.

UDA Needs Profile: Port Republic Road/Stone Spring

The Port Republic Road/Stone Spring UDA is just outside the southwest boundary of Harrisonburg, in the Port Republic Road corridor south of I-81.

Location Characteristics

PDC – Central Shenandoah Planning District Commission

UDA Size – 6.5 square miles

Year Designated – 2010

Comprehensive Plan Detail - In a 2012 amendment in the Rockingham County Comprehensive Plan, the County designated an Urban Development Area (UDA) around the new Rockingham Memorial Hospital. The amendment included a new mixed use zoning district to allow the development of new neighborhoods that contain a mix of land uses and building types that are connected to a system of pedestrian-friendly streets.

UDA Needs Profile: Front Royal

Warren County and the Town of Front Royal designated three UDAs – Front Royal North, Leach Run, and Front Royal South. This profile represents the characteristics and needs of Front Royal North (the Happy Creek area to the east of downtown Front Royal).

Location Characteristics

- **PDC** – Northern Shenandoah Valley Regional Commission
- **UDA Size** – 1.1 square miles
- **Year Designated** – 2011

**Comprehensive Plan Detail** - Warren County has designated three Urban Development Areas (UDAs) - Front Royal Town - South, Front Royal Town - North, and Leach Run (also in the town of Front Royal). The County worked with the Town of Front Royal to identify the required acreage sufficient to satisfy projected residential and commercial growth of ten years. UDAs are required to incorporate principles of new urbanism and traditional neighborhood design.

UDA Needs Profile

The City of Waynesboro designated its entire city boundary as an Urban Development Area in 2015. Waynesboro is located in Shenandoah Valley, bisected by I-64 and bordered by the Shenandoah National Park to the north and the Blue Ridge Parkway to the south.

Location Characteristics

- PDC – Central Shenandoah Planning District Commission
- UDA Size – 15 square miles
- Year Designated – 2015
- Comprehensive Plan Detail – Waynesboro's entire 15 square miles is served or could be served by public water and sewer. With regards to the density requirements, the entire City currently zoned for density thresholds that meet or exceed the State laws minimums, with the except of the RS-12 single family dwelling district. However, with a minimum lot size of 12,000 square feet (roughly 3.6 dwelling units per acre) and lot width of 100 feet, the RS-12 district is close to the intent of the UDA requirements.

![Graph showing gap by need category](image)

### Highest Rated Overall Needs within UDA

Localities ranked **transportation needs** within their UDAs (1 being the highest need, to 4 the lowest)

- Circulation and access within the UDA
- Access to transportation networks beyond the UDA
UDA Needs Profile: Area 1

The Town of Woodstock has designated two UDAs within their jurisdiction. Area 1 UDA is located between Route 11 and the North Fork Shenandoah River, and east of the downtown district.

Location Characteristics

PDC – Northern Shenandoah Valley Regional Commission

UDA Size – 0.2 square miles

Year Designated – 2011

Comprehensive Plan Detail - Woodstock currently has two Urban Development Areas (UDAs). The first, located directly to the east of Woodstock’s primary downtown district, is a critical location of undeveloped parcels that could be used for a variety of compact residential uses to support Woodstock’s Main Street core. The second, located at the southeast edge of Woodstock, could be an ideal location for TND-style development that is transitional in nature, combining both village-scale residential and commercial opportunities.

UDA Needs Profile: Broadway Town UDA

The Town of Broadway has one UDA, located east of Timber Way and the North Fork Shenandoah River. Planned development for the UDA includes an interconnected street network, mixed-use buildings, and targeted public investments in street lighting, street furniture and sidewalks.

Location Characteristics

- **PDC** – Northern Shenandoah Valley Regional Commission
- **UDA Size** – 0.3 square miles
- **Year Designated** – 2011

Comprehensive Plan Detail

Urban Development Areas are designated areas within the planned annexation area adjacent to the Town. It is planned for compact, mixed use development at urban development densities and intensities and intended to serve as a focal point for growth over the next 10-20 years. Development within the UDA must be compact, using Traditional Neighborhood Design principles, and designed to accommodate pedestrian and vehicular traffic with a full complement of services and amenities. Urban Development Areas are served by or planned for central sewer and water service, and transportation infrastructure.

UDA Needs Profile: All UDAs

The Town of Luray, located in the Shenandoah Valley, designated five UDAs, all permitting densities of four units per acre or more and projected to satisfy residential and commercial growth for a 10 to 20-year planning horizon.

Location Characteristics

PDC – Central Shenandoah Planning District
UDA Size - 1.5 square miles
Year Designated – 2015

Comprehensive Plan Detail – The Town of Luray’s zoning and subdivision ordinance provide mechanisms for traditional neighborhood design such as pedestrian-friendly street design, interconnected streets, preservation of natural areas, mixed-use neighborhoods that include mixed housing types, shallow or no building setback requirements, and reduction of subdivision street widths and turning radii at subdivision street intersections.

### Highest Rated Overall Needs within UDA

Locally ranked **transportation needs** within their UDAs (1 being the highest need, to 4 the lowest)

- Friendly Pedestrian and Bicycle Environment
- Safety for all users
UDA Needs Profile

The Town of Clifton Forge designated the entire town boundary as a UDA in 2015, along the Jackson River and straddling/to the south of US 60.

Location Characteristics

PDC- Roanoke Valley-Alleghany Regional Commission

UDA Size – 3 square miles

Year Designated – 2015

Comprehensive Plan Detail - In order to promote future growth in residential and commercial areas, the establishment of the entire town as an Urban Development Area (UDA) is proposed. In developing a town-wide UDA, the Town will be able to provide incentives for attracting new and infill development, and allow it to apply for state transportation projects which serve the UDA. A UDA is a tool for the coordination of transportation and land use—a way to grow smarter.

UDA Needs Profile: All UDAs

Bath County designated a total of five UDAs in 2015. The UDAs are centered around the Millboro, Hot Springs, Bacova, and Warm Springs areas.

**Location Characteristics**

- **PDC**: Central Shenandoah Planning District Commission
- **UDA Size**: 33 square miles
- **Year Designated**: 2015

**Comprehensive Plan Detail** - Bath County’s most recently adopted Comprehensive Plan, identifies growth areas consistent with the definition of urban development areas in §15.2-2223.1. Designated Growth Areas in Bath County will encompass Smart Growth Principals and foster land uses that encourage “Village Type” growth models for business and residential areas as well as a mix of uses, and connectivity through a variety of transportation means including roads, bicycle routes and pedestrian trails.

### Highest Rated Overall Needs within UDA

Localities ranked transportation needs within their UDAs (1 being the highest need, to 4 the lowest)

- Safety for all users
- Circulation and access within the UDA
UDA Needs Profile: All UDAs

Augusta County designated a total of five UDAs in 2015, centered around the Stuarts Draft, Fishersville, Verona, and Weyers Cave areas.

Location Characteristics

- **PDC:** Central Shenandoah Planning District Commission
- **UDA Size:** 56 square miles
- **Year Designated:** 2015

**Comprehensive Plan Detail:** Augusta County expects to continue to see modest growth in population and employment over the next 20 years, especially in the four major designated Urban Service Areas. The Urban Service Areas of Fishersville, Staunton South and West, Stuarts Draft, Verona, and Weyers Cave promote the goals of urban development areas consistent with §15.2-2223.1. The County expects the majority of commercial development to occur in Fishersville, Stuarts Draft, Verona, and Weyers Cave (dependent on water and sewer upgrades). These Urban Service Areas are well-served by transportation and other public infrastructure.
